

Ride More & Live Better

axiomgear.com

Journey Uni-Fit MK3 Cromo (left). Raise, lower, or set the rack back with adjustable foot hardware, included (above).

JOURNEY UNI-FIT REAR RACKS

FEATURES:

Axiom's Uni-Fit rear racks fit practically any bike: road bikes, touring bikes, bikes with disc brakes, and bikes with no eyelets. **How?** Two sets of "foot" hardware (included) attach the rack to the rear skewer of almost any 26", 27", 28", 29", 700c, and 650B-sized wheel. Available in **chromo** and **aluminum**, the racks can handle 50kg (110lb) of gear.

Available in three designs:

The **MK3 Cromo** rear rack is hand-welded with strong, high-carbon steel alloy (chromoly). An extra tube across and behind the stays offers a second mounting option that positions panniers lower and further back for increased balance and heel clearance.

The **MK3 Alu** rear rack is hand-welded with 6061-T6 aluminum. Like the MK3 Cromo, it is designed with an extra tube across and behind the stays.

The **MK2 Alu** rear rack is hand-welded with 6061-T6 aluminum. It includes all the hardware and mounting options of the MK3 versions in a simple, two-stay design.

ABOUT THE JOURNEY SERIES:

In addition to Uni-Fit racks, Axiom's Journey Series also offers a range of simple and sturdy rack solutions to bike riders and bike stores. These include the Journey, the Journey w/ Spring, the Journey Disc (for bikes with disc brakes), the Adjustable 2429 (for 24" to 29" bikes), and the Transit.

SPECIFICATIONS: MK3 CROMO (SHOWN)

- Hand (Double) welded 10 mm Cro-Moly Steel
- Epoxy powder coated for long-term durability
- Patent Pending stainless steel Uni-Fit modular foot design provides adjustable setback and adjustable height
- Designed to fit disc-equipped bicycles, bicycles without eyelets, road bikes and traditional bicycles
- Additional 3rd rear support stay and low mount bar provides additional support for bags, and allows load to be mounted lower and further back if needed
- Dual mounting bracket options for center caliper/fender bridge mount, or traditional dual eyelet mount
- Extra-long 280 mm alloy Versalock mounting arms adjust to fit all frame sizes and offer additional mounting options
- Frame mounting bolts included
- Reflector bracket included
- Fits 26", 27", 28", 700C, 650B, 29"
- Mounts to rear QR axle skewer, or to traditional eyelets
