## RAINRUNNER 360 REFLEX FENDER SET

### FEATURES:

#### No eyelets? No problem!

New for 2014, Axiom reinvents the popular **Rainrunner DLX Reflex** full-coverage fenders with additional fitting options, easier installation, and greater visibility. Both the **Trekk** (700C) and **MTB** (26") designs still include Axle Runner adaptors that add a fender-ready eyelet to any skewer—even bikes with disc brakes. Now packaged with extra-stiff stays attached, just roll the Rainrunner onto the wheel, snap on the attachment clamp, and then pull down and tighten the stays. The wide 3M reflective striping now coats both sides of the fender for nearly 360-degrees of visibility. Front/rear set.

*"The Axiom Rainrunner Deluxe Reflex Mudguards have a seriously solid feel... once fitted they look great and perform well." — Road.cc*
