SHOCKAIR DP SHOCK PUMP

FEATURES:

Axiom's 2-in-1 pump for both rear and fork shocks is light and precise. The pressure gauge has two faces of calibration: a silver side that displays up to 300psi for rear shocks, and a black side that displays finer increments up to 110psi for suspension forks. The secure valve connector doesn't release air on removal, plus acts as a bleed valve for pressure fine-tuning. The 6063-T3 aluminum barrel encases an alloy shaft with anodized-trim handle for long life. **Bonus:** A double-braided hose for high pressure, and a knurled grip for a confident hold.

SPECIFICATIONS:

- Unique dual pressure-gauge design
- Front gauge is calibrated to 300 psi – ideal for rear shocks
- Rear gauge is calibrated to 110 psi – ideal for suspension forks
- 6063-T6 aluminum barrel
- Alloy handle and shaft
- Double braided hose designed for extreme pressures
- No-Loss head ensures accurate shock pressure upon removal
- Bleed valve for fine-tuning
