SMARTBOX TOP TUBE BAG

NEW

FEATURES:

New for 2014, the **SmartBox** answers triathletes, marathoners, and long-ride cyclists' need to keep their ride fuelled and aerodynamic. Weighing in at just 3.6 oz, the SmartBox rests behind the bike's head tube and attaches with three Velcro-style straps. Slim and streamlined like the Axiom **SmartBag**, this stiffer version opens easily with one hand and holds its shape. Tuck away gels and bars in the main pocket, and electronics in the side pocket. **Bonus:** a cut-out for headphone cords.

ABOUT THE GRANFONDO SERIES:

Long group rides such as *gran fondos* and charity events appeal to cyclists of all experience levels, and Axiom has designed the GranFondo series of compact and streamlined frame bags just for them. The aerodynamic bags tuck into wind-protected areas of the bike. Ranging in size from .75 to 2.5 litres, each bag is slim enough to stay out of the way, but roomy enough to hold essentials for a day ride. **H2O** bags attach to the seat tube, the **Cascade** bags fits inside the frame triangle, and **SmartBags** rest on the top-tube behind the stem.

SPECIFICATIONS:
