STREAMLINER DLX REAR RACKS

FEATURES:

Designed for road riders, commuters, gran fondo participants, and cycle tourers who want to reduce wind-resistance; Axiom's **Streamliner DLX** series of rear racks is slim, light, and well fitting.

Available in both **Road** and **Disc** (for disc brakes) designs, Streamliner racks have a narrow, tapered platform that both positions panniers into an aerodynamic wedge shape, and brings the panniers closer to the bike's centre of gravity for stability. The 3-stay racks are hand-welded aluminum and capable of a 50kg (110lb) load.

Both the Road and Disc designs set the rack away from heel-strike, and attach to standard eyelets or quick-release skewers (for bikes without eyelets). The Disc design fits bicycles with 26", 27", 28", 29", 700c, and 650B wheels, and comes with extra hardware for mounting to eyelets.

Wedge-shaped Streamliner racks secure loads closer to a bicycle's centre of gravity, ensuring optimal load stability and aerodynamics.

Choose from the ultra-narrow Road (shown above) or the wider platform Disc design.

LIFETIME GUARANTEE

Axiom products are warranted against manufacturing defects for the lifetime of the original purchaser. If a product is determined to be defective by the original Axiom dealer who sold the product, it will be replaced at no charge with original proof of purchase.

As a proudly Canadian company, Axiom's commitment to sustainability is a philosophy that guides everything we do. Axiom Performance Gear is a division of Live to Play Sports

SPECIFICATIONS (ROAD DLX):

- Hand (Double) welded 10 mm Tubular 6061 T6 Aluminum
- Ultra-narrow Streamliner designed specifically for road bikes
- Streamliner foot with 40 mm setback to compensate for lack of heel clearance caused by short chainstays on road bikes
- Safe for use on carbon fiber frames
- Additional 3rd rear support stay, and low mount bar provides additional support for bags, and allows load to be mounted further back if needed
- Caliper brake/fender bridge mount
- Frame mounting bolts included
- Reflector bracket included
- Fits 700C
- Mounts to rear QR axle skewer, or to traditional eyelets

Load Capacity	50 kg (110 lbs)
Item Numbers	171285 Road 171271 Disc
MSRP	\$40 USD / CAD Road \$42.50 USD / CAD Disc
